## CSIF rates for Fluorescent Microscopy Core (FMC) 2008-2009

### General

All the rates presented below are Stanford Interdepartmental rates for the academic year 2008-2009.

Prices for consumable supplies are based on current market price and are subject to change. The prices below are current as of 09/01/08.

### Microscopes - independent user fees

Microscope system:	hourly rate	setup fee*
2-photon, live cell imaging microscope (to be acquired in 2009)	\$54	\$280
Zeiss LSM 510 confocal, two-photon laser scanning microscope	\$54	\$280
Leica SP2 AOBs confocal	\$54	\$280
Applied Precision DeltaVision wide-field deconvolution microscope	\$42	\$280
Technical assistance/consulting	\$57	NA
Processing computers (Akasha, Enkil, Memnoch, Ashlar, St Francis)	\$12	included

### Off-hour rates for use:

1) For experienced users who use any confocals, 2-photon or deconvolution microscopes for 6 or more hours continuously during OFF-HOURS, we offer an OFF-HOUR rate of \$30/hour.

2) Research groups that use the confocal/2 photon 30 or more hours per month, during OFF-HOURS will be charged at \$27/hour for all confocal use.

To qualify for these rates you must have after-hours access to the facility (i.e. be an experienced, competent user) and must use the confocal/2 photon between 5:00 pm and 8:00 am M-F, or any time on weekends. Reserved but unused time does not qualify for these discounts. Please speak with the facility Director for more information.

\* Setup fee includes establishing computer accounts and initial one-on-one 3 hour training session. This is required to use any of the instruments in the CSIF. Users can only be trained on one system per month.

**CSIF rates for Fluorescent Microscopy Core (FMC) 2008 - 2009  
(continued)**

Service:	Tech	equip
Array tomography service (time and materials)	\$57/hr	\$25/hr

**Consumable supplies at cost**

Dell 5110cn laser prints	\$2.50 /print
DVD, blank	\$2/disk
CD, blank	\$1/disk
Chambered coverslips, 8 well, #1.5 coverslip bottom	\$5.25/slide
Biotech dishes	\$6.50/dish
